### Housing Supply and the Economy

In the final quarter of 2012, there were 50 new dwelling starts and 90 dwelling completions in York LA area. All of these apart from 10 starts and 10 completions were in the private sector. Dwelling starts have remained at a similar level as in the previous quarter but fallen from 60 in corresponding quarter in 2011.

Research by Northern Housing Consortium and Sheffield Hallam University into the contribution housing makes to the [economy in the north](#) shows that between local authorities, ALMOs and registered housing providers, £10.3bn worth of output expenditure was made in the North in 2011/12, supported 116,000 jobs and 8,400 new homes were built in the previous year.

Recently released figures show that there are a total of 2,242 unemployed in the constituency (3% of the working aged population). This represents a 13.8% decrease on the same point in 2012. Some 4.1% of working-aged males and 1.9% of their female counterparts were claiming unemployment benefits in March 2013 and while male figures decreased by 15.2% on the previous year, females figures fell by 10.6%.

ONS data shows a higher proportion of smaller households with over two-thirds of households (68.4%) having either one or two people living in them. Three-person households make up 14.5% of households. Figure 1 below shows the proportions of all households in the constituency and how this compares with regional figures.
