

# Berwick upon Tweed Parliamentary Constituency

This is the first bulletin of 2015 produced by Northern Housing Consortium (NHC) providing analysis of housing-related data for the Parliamentary Constituencies in the North of England. The report provides analysis of the impacts of welfare reform and the housing market in the constituency.

We have used the following symbols to indicate your performance against the relevant regional or national statistics.

## Financial Distress

Census data shows that in Berwick upon Tweed, 68.7% of working aged people were working full-time and 31.3% worked part-time. The corresponding figures for the region are 70% and 30%.

The Annual Survey of Salaries and Hours (ASHE) shows that in the constituency (as a place of work), 33.4% of all employee jobs paid below the Living Wage in 2014 (£7.65ph), an increase from 33.2% in 2013. This compares to 23.4% regionally and 21.7% nationally.

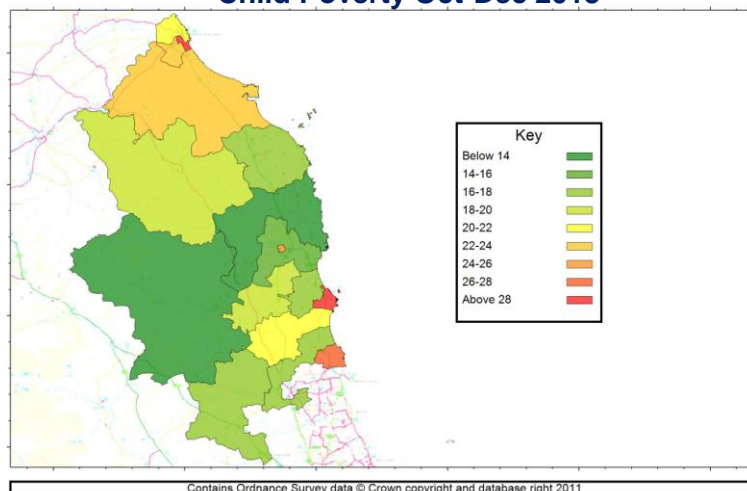

In the constituency, between September 2013 and September 2014, total Benefit sanctions fell by 37.6%. There were no Employment and Support Allowance sanctions in this same period. Meanwhile, Job Seekers Allowance sanctions fell from 93 to 58 (-37.6%).

In a previous edition of the Constituency Profiles, we reported that in Berwick upon Tweed, 18% of children live in poverty. One year on, we can report that figure, before housing costs, stands at 13.4%. However, when housing costs are taken into account, 21.3% of children live in poverty (End Child Poverty) and the map below shows that Berwick East (30.9%) is the worst affected ward.

### Child Poverty Oct-Dec 2013

# Berwick upon Tweed Parliamentary Constituency

## Housing Market

After being on a general downward trend between Q1 2013 to Q2 2014, social landlord possession claims fell further by 14.2% between Q2 2014 and Q4 2014 in Northumberland (from 113 to 97). Over the same period, actual possessions grew by 3.6% to 29. Meanwhile, mortgage claims fell but actual possessions grew over the same period.

In the final quarter of 2014, Northumberland Council made 80 homelessness decisions and accepted 43 households as being homeless and in priority need (53.8%). At the end of 2014, no households were housed in temporary accommodation, a similar picture as in the quarter ending in June.

Some have pointed to a lack of new affordable homes being built as the reason behind the increase in homelessness. The latest annual figures show that in Northumberland, while the number of new homes started has increased and completed homes decreased (2012/13 to 2013/14), the proportion in the social sector has increased for both starts and completions.

Looking at quarterly building statistics, in the final quarter of 2014, there were 160 dwellings started and 200 completed in Northumberland. While 25% started dwellings were in the social sector, 30% of completed dwellings were social. In the corresponding quarter of 2013, 47.4% of dwellings started and 38.9% of completed were in the social sector.

Nomis data (2011) shows that in the constituency, 64% are owner-occupiers, 17% rent from a social landlord and 19% are private renters. However, looking at tenure by the age of the household reference person shows changes by age. There is a steep increase in owner-occupation between the ages of 24 and under (12%) and 50 to 64 year age bracket (72%) before falling to 58% for those aged 85 and over. Conversely, renting is more popular for those aged 24 and below (88%) before falling and then increasing slightly in later years.
