

Blaydon Parliamentary Constituency

This is the first bulletin of 2015 produced by Northern Housing Consortium (NHC) providing analysis of housing-related data for the Parliamentary Constituencies in the North of England. The report provides analysis of the impacts of welfare reform and the housing market in the constituency.

We have used the following symbols to indicate your performance against the relevant regional or national statistics.

Financial Distress

Census data shows that in Blaydon, 71.4% of working aged people were working full-time and 28.6% worked part-time. The corresponding figures for the region are 70% and 30%.

The Annual Survey of Salaries and Hours (ASHE) shows that in the constituency (as a place of work), 30.1% of all employee jobs paid below the Living Wage in 2014 (£7.65ph), a decrease from 34% in 2013. This compares to 23.4% regionally and 21.7% nationally.

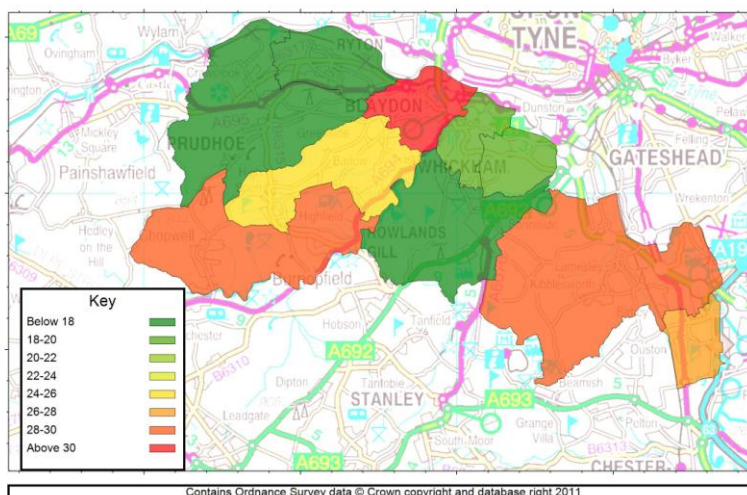

In the constituency, between September 2013 and September 2014, total Benefit sanctions fell by 19%. Employment and Support Allowance sanctions grew from none to 6 in this period. Meanwhile, Job Seekers Allowance sanctions fell from 116 to 88 (-24.1%).

In a previous edition of the Constituency Profiles, we reported that in Blaydon, 23% of children live in poverty. One year on, we can report that figure, before housing costs, stands at 14.2%. However, when housing costs are taken into account, 22.6% of children live in poverty (End Child Poverty) and the map below shows that Blaydon (30.3%) is the worst affected ward.

Child Poverty Oct-Dec 2013

Housing Market

After being on a general downward trend between Q1 2013 to Q2 2014, social landlord possession claims grew by 52.4% between Q2 2014 and Q4 2014 in Gateshead (from 63 to 96). Over the same period, actual possessions fell by 12% to 22. Meanwhile, mortgage claims fell but actual possessions grew over the same period.

In the final quarter of 2014, Gateshead Council made 105 homelessness decisions and accepted 37 households as being homeless and in priority need (35.2%). At the end of 2014, 17 households were housed in temporary accommodation, a 19% fall on the quarter ending in June.

Some have pointed to a lack of new affordable homes being built as a reason behind the increase in homelessness. The latest annual figures show that in Gateshead, while the number of new homes started has decreased and completed homes increased (2012/13 to 2013/14), the proportion in the social sector has increased for both starts and completions.

Looking at quarterly building statistics, in the final quarter of 2014, there were 80 dwellings started and 70 completed in Gateshead. While no started dwellings were in the social sector, 14.3% of completed dwellings were social. In the corresponding quarter of 2013, no dwellings started and 27.3% of completed were in the social sector.

Nomis data (2011) shows that in the constituency, 69% are owner-occupiers, 21% rent from a social landlord and 10% are private renters. However, looking at tenure by the age of the household reference person shows changes by age. There is a steep increase in owner-occupation between the ages of 24 and under (21%) and 50 to 64 year age bracket (77%) before falling to 58% for those aged 85 and over. Conversely, renting is more popular for those aged 24 and below (79%) before falling and then increasing slightly in later years.
