

## Oldham West and Royton Parliamentary Constituency

This is the second bulletin of 2015 produced by Northern Housing Consortium (NHC) providing analysis of housing-related data for the Parliamentary Constituencies in the North of England. The report provides analysis of the impacts of welfare reform and the housing market in the constituency.

We have used the following symbols to indicate your performance against the relevant regional or national statistics.

### Financial Distress

ONS figures show that in the year ending in June 2015, there were 40,000 people aged over 16 years old in employment (61.6%) in Oldham West and Royton. There are 46,000 jobs in the constituency which equates to 0.71 jobs per 16-64 year old compared to 0.77 across the North West.

Experimental Jobseekers Allowance and out of work Universal Credit statistics produced by Jobcentre Plus shows that there were 2,090 such claimants in November 2015 (3.3% of 16-64 year olds), which is 0.1% decrease on the previous year. This compares to 2.4% of people in the region (a 0.1% increase).

The latest Government data shows that there were 28,650 children in low income families in the constituency in August 2013 (25.9% of all children). Over four-fifths were in families in receipt of Income Support or Jobseekers Allowance while 13.2%, in families in receipt of Council Tax Credit and with less than 60% of median income.

Coldhurst ward (38.2%) had the greatest concentration of such children followed by Hollinwood (36.5%). Chadderton South has a higher than average proportion of children living in a family in receipt of Income Support or JSA (87.7%).

# Housing Market

In 2014/15, there were 49 homeless acceptances by Oldham Council. This is a 31.9% decrease on the 72 acceptances in 2009/10. Of these, 22 households were found temporary accommodation and there were no households that were not found accommodation at the end of March 2015 despite a duty being owed.

In October 2014, the total number of vacant homes was 3,461. This is a 31.1% fall from 5,036 in 2009 compared with the 37.5% fall in Greater Manchester. Long-term vacants fell by 32.8% over the same period. There was a total of 436 social vacants and 19 were classed as long-term vacant (4.4%) which is a fall from 119 in the previous year.

As at April 2014, there were 13,185 households on the housing waiting list in Oldham. This is a 21.3% increase on the previous year of 10,874. Furthermore, this figure represented a large growth on previous years and the long-term trend is a 101.1% increase on 2009 figures.

There are clear signs of a recovery in housing market with year-on-year increases in sales between 2009 and 2014 (14.7%) with greatest increase in sales of semi-detached properties and a fall in sales of flats and terraced properties (ONS). The data also shows house prices at their highest level in 2014 (£125,000).

As figure 2 shows, median house prices and pay have not grown at the same rate. Median gross pay outstripped that of median house prices in 2014. As a result, the affordability ratio fell to 6.2 from 5.6 between 2012 and 2014.
