

Beverley and Holderness Parliamentary Constituency

This is the first bulletin of 2015 produced by Northern Housing Consortium (NHC) providing analysis of housing-related data for the Parliamentary Constituencies in the North of England. The report provides analysis of the impacts of welfare reform and the housing market in the constituency.

We have used the following symbols to indicate your performance against the relevant regional or national statistics.

Financial Distress

Census data shows that in Beverley and Holderness, 69.1% of working aged people were working full-time and 30.9% worked part-time. The corresponding figures for the region are 69.3% and 30.7%.

The Annual Survey of Salaries and Hours (ASHE) shows that in the constituency (as a place of work), 25.2% of all employee jobs paid below the Living Wage in 2014 (£7.65ph), an increase from 21.8% in 2013. This compares to 24.3% regionally and 21.7% nationally.

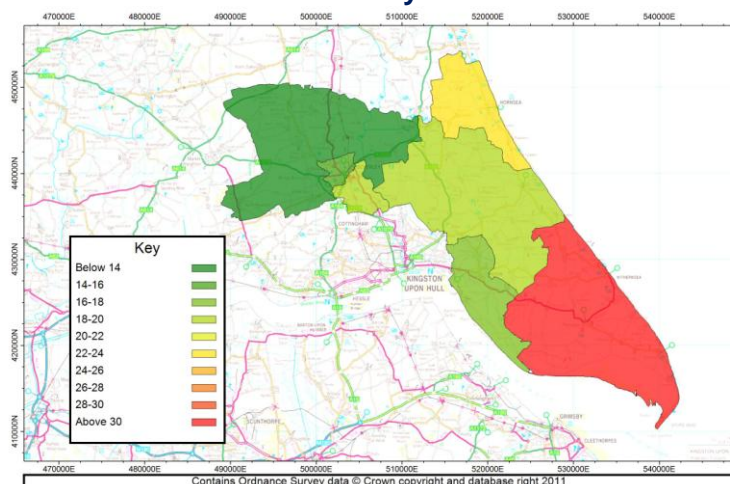

In the constituency, between September 2013 and September 2014, total Benefit sanctions fell by 30%. Employment and Support Allowance sanctions fell from 5 to none in the same period. Meanwhile, Job Seekers Allowance sanctions fell from 85 to 63 (-25.9%) in the period.

In a previous edition of the Constituency Profiles, we reported that in Beverley and Holderness, 11% of children live in poverty. One year on, we can report that figure, before housing costs, stands at 12.1%. However, when housing costs are taken into account, 19.3% of children live in poverty (End Child Poverty) and the map below shows that South East Holderness (30.1%) is the worst affected ward.

Child Poverty Oct-Dec 2013

Housing Market

After a general downward trend between Q1 2013 to Q2 2014, social landlord possession claims fell further by 39.6% between Q2 2014 and Q4 2014 in East Riding of Yorkshire (from 53 to 32). Over the same period, actual possessions fell by 15.4% to 11. Meanwhile, mortgage claims and possessions fell over the same period.

In the final quarter of 2014, East Riding of Yorkshire Council made 136 homelessness decisions and accepted 53 households as being homeless and in priority need (38.9%). At the end of 2014, 24 households were housed in temporary accommodation, a 7.7% increase on the quarter ending in June.

Some have pointed to a lack of new affordable homes being built as a reason behind the increase in homelessness. The latest annual figures show that in East Riding of Yorkshire, while the number of new homes started have increased and completions have decreased, (2012/13 to 2013/14), similarly, the proportions of starts and completions have increased and decreased respectively.

Looking at quarterly building statistics, in the final quarter of 2014, there were 140 dwellings started and 90 completed in East Riding of Yorkshire. No starts and 11.1% of completions were in the social sector. In the corresponding quarter of 2013, no starts or completions were in the social sector.

Nomis data (2011) shows that in the constituency, 76% are owner-occupiers, 10% rent from a social landlord and 15% are private renters. However, looking at tenure by the age of the household reference person shows changes by age. There is a steep increase in owner-occupation between the ages of 24 and under (22%) and 50 to 64 year age bracket (83%) before falling to 70% for those aged 85 and over. Conversely, renting is more popular for those aged 24 and below (78%) before falling and then increasing slightly in later years.
