

Shipley Parliamentary Constituency

This is the second bulletin of 2015 produced by Northern Housing Consortium (NHC) providing analysis of housing-related data for the Parliamentary Constituencies in the North of England. The report provides analysis of the impacts of welfare reform and the housing market in the constituency.

We have used the following symbols to indicate your performance against the relevant regional or national statistics.

Financial Distress

ONS figures show that in the year ending in June 2015, there were 61,000 people aged over 16 years old in employment (76.2%) in Shipley. There are 35,000 jobs in the constituency which equates to 0.59 jobs per 16-64 year old compared to 0.74 across Yorkshire and the Humber.

Experimental Jobseekers Allowance and out of work Universal Credit statistics produced by Jobcentre Plus shows that there were 910 such claimants in November 2015 (1.5% of 16-64 year olds), which is a 0.5% fall on the previous year. This compares to 2.2% of people in the region (a 0.5% decrease).

The latest Government data shows that there were 19,760 children in low income families in the constituency in August 2013 (12.1% of all children). Almost two-fifths were in families in receipt of Income Support or Jobseekers Allowance while 15.3%, in families in receipt of Council Tax Credit and with less than 60% of median income.

Windhill and Wrose ward (20.4%) had the greatest concentration of such children followed by Shipley (15.8%). Baildon has a higher than average proportion of children living in a family in receipt of Income Support or JSA (85.4%).

Housing Market

In 2014/15, there were 304 homeless acceptances by Bradford Council. This is a 169% increase on the 113 acceptances in 2009/10. Of these, 64 households were found temporary accommodation and there were 55 cases of a duty being owed but no accommodation found.

In October 2014, the total number of vacant homes was 9,778. This is a 28.7% fall from 13,720 in 2009 compared with the 26.6% fall in West Yorkshire. Long-term vacants fell by over two-fifths (46%) over the same period. There was a total of 961 social housing vacants and 220 were classed as long-term vacant (22.9%) which is a decrease from 509 in the previous year.

As at April 2014, there were 15,058 households on the housing waiting list in Bradford LA. This is a 1.5% increase on the previous year of 14,832. However, the long-term trend is downwards with a fall of 73.1% on 2009 figures.

There are clear signs of a recovery in the housing market in the constituency with an overall increase in sales between 2009 and 2014 (52.5%) with greatest increase in sales of detached properties (ONS). Furthermore, house prices grew between 2013 and 2014 and reached their highest level since 2007.

As figure 2 shows, median house prices and pay (ASHE) have not grown at the same rate. There was a relatively large growth in median pay in 2013. As a result, the affordability ratio fell to 6.5 from 7.2 between 2012 and 2013 and remained at this level the following year.
