About Us

The Northern Housing Consortium is a membership body representing the views of around 93% of housing providers across the North of England. Our events and procurement services extend beyond the North, to approximately 150 affiliate members.

Our reputation and influence extends across the UK and our role as connectors enable our members to come together and engage with a range of government departments, politicians and the wider private sector.

With the government's focus on growing regional economies and tackling the UK's housing challenge, we are ideally placed to help connect our members with Supporters who share our ambitions for housing in the North.

Our high-profile conference and roundtable programme attracts more than 1,500 delegates every year. We use the insightful views and experiences of our members to influence policy and we strive to remain a strong Northern voice on behalf of our membership.

Please contact us if you feel that you have a key role to play in the housing sector's success.
